

Amery Hospital & Clinic brings the high-quality health care you would expect to find in large cities to the convenience and comfort of your hometown. Here, you'll get expert treatment with the personalized touch of community doctors.

We've cared for the Amery community since 1956. In our time serving Amery and the surrounding communities in Polk County and western Wisconsin, we've worked to offer more to our patients – more care options, more comfort, and more expertise. To do this, we work closely with our partner hospitals and clinics in the Twin Cities and western Wisconsin, including Regions, Hudson, Lakeview, and Westfields Hospitals. And, as part of the HealthPartners care system, we can seamlessly connect patients to specialized care from hundreds of doctors in our care system.

Amery Hospital & Clinic earned national recognition as a leader in excellent patient outcomes from The Chartis Center for Rural Health and the National Organization of State Offices for Rural Health, ranking us among the top 25% of rural hospitals in the United States. We've also been recognized for our commitment to sustainability and the environment. We were the first hospital in the world to become a Certified Audubon Cooperative Sanctuary among many other awards and recognitions.

Our team of leading doctors, specialists and surgeons will be by your side through all of life's moments, from birth to senior care. Whether you need an annual checkup, want to schedule a therapy session or want to talk to an orthopedic doctor, you'll find all that and more just a short way from home.

Currently Amery Hospital & Clinic is looking for Respiratory Therapists who want to join our amazing team. Our Respiratory Therapists are responsible for and ensure proper respiratory care and positive patient outcomes in a medical center setting. They administer therapy in accordance with the prescription of a MD and follow state and Joint Commission recommendations/Medicare regulations and standards of care. They also assist physicians upon request in assessing individual patients and designing appropriate therapy regimens. In addition, they monitor, evaluate, and make necessary changes to ensure all therapy is completed in a timely and effective manner.

Qualified candidates will hold a WI RRT or CRT license along with appropriate CRP certifications.

Our Respiratory Therapists currently work a 12-hour day shift with Sunday – Saturday coverage. NO CALL OBLIGATION.
