

Rachel Wagner
Respiratory Therapist
Mayo Clinic Health System- Eau Claire
Wagner.Rachel@mayo.edu

I am a 2013 graduate from Chippewa Valley Technical College, and a Respiratory therapist at Mayo Clinic Health System Eau Claire. I am the Membership Chair for the WSRC appointed by the Board of Directors. I have held this position since April of 2016. As the Membership Chair I work in coordination with district representatives and members to increase and encourage membership. As well as maintain record of past and present members.

Since graduating it has been important to me to stay involved in my professional organization. Another way I have been able to stay involved is by serving on the registration committee for the NRRCC since 2014. I have had great mentors that have led me to recognize I can help advocate for this career that I am so passionate about. In my few short years of being an RT I have been able to network and meet so many great people that have encouraged me to continually gain knowledge and stay driven.

Become and stay a member of your state society! 😊
